

JNYAN P

AI FULL - STACK ENGINEER

+91 93800 88946 ◇ Kodagu, KA

[Email](#) ◇ [LinkedIn](#) ◇ [GitHub](#)

OBJECTIVE

CS student (AI & ML) seeking an internship to apply skills in IoT, AI development, and software engineering. Passionate about building impactful technology solutions.

EDUCATION

B.E., Computer Science (AI & ML), Malnad College of Engineering

Expected 2027

Current CGPA: 8.26

SKILLS

Technical Prompt Engineering, C, Python, MySQL, HTML, CSS, PHP

Tools Figma, VS Code, Photoshop, Canva, Gemini CLI, Claude

Soft Skills Teamwork, Leadership, Adaptive Learning

EXPERIENCE

Workshop Lead & Member, ME-RIISE Foundation

Jan 2024 – Present

- Led IoT workshops for university students; mentored junior members on project development.
- Organized innovation & entrepreneurship events, managing logistics for 50+ participants.

PROJECTS

RA-One Overdrive — 2D Fighting Game. Browser-based game built with HTML5 Canvas, CSS & JS. Features 1P vs Adaptive CPU, Local 2P PvP, overdrive system, combos & particle effects. ([Play Live](#))

Expense Tracker Web App. Full-stack client project with authentication & expense management. Built using PHP, MySQL, HTML, CSS & JS; deployed on InfinityFree. ([View Live](#))

Medical IoT Device. IoT device for patient safety — prevents air embolism during medical procedures.

AI Chatbot. Deployed a functional AI chatbot using modern web technologies. ([View Live](#))

HACKATHONS & COMPETITIONS

- **Corporate & National:** Honeywell Hackwell 5.0 (Apr 2025), Smorphi Imaginary Robotics Hackathon (Jan 2025), National Hackathon at Shridevi Institute (Oct 2024).
- **UI/UX & Design:** PRAGYATHA'23 UI/UX Hackathon; TECHKRITI '24 DESIGN-A-THON.
- **Ideathons & Startup:** Aavishkar Manthan 2K25 IDEATHON; Argonyx Startup Simulation (2024 & 2025); HACKABHiGNA.
- **Organizing:** Coordinated Automation Hackathon 2025 (n8n) — managed schedules, landing pages & assets.
- **Coding Events:** CODE VAULT 2025 (MIT Mysore); HACK KSHETRA'24 (VVCE).

ACHIEVEMENTS & ACTIVITIES

- **Top Prompt Creator** — Google Student Ambassador Program's Game Night, April 2026, MCE Hassan. Built & presented *RA-One Overdrive*, the game played at the event.
- Active member of ME-RIISE innovation cell, focusing on cross-disciplinary technology projects.
- Self-directed learner on online platforms, mastering AI/ML technologies and web development.
- **Certificates:** [View all certificates on Google Drive](#)
